

expanding horizons

Committed People Committed Results

RUDRANEE

Rudranee Infrastructure Ltd. provides Design, Engineering, Procurement and Construction Services for a diverse range of new age infrastructural needs of the country. We love the fact that we contribute our bit in **building nation by building world class infrastructure.**

We are operational in **Government** as well as **Private Sectors**. We are specialized in operating in various development domains such as Power Projects, Water Supply Solutions, Airstrips, Roads & Bridges, Commercial & Residential Complexes, Industrial Sheds and Hospitals etc. We also undertake BOT projects.

Our **vast experience** of working in varied fields, our ability in mobilising financial & human resources and in-time optimum inventory helps us to achieve **work fluency & speed**. This makes us the preferred service provider for any critical project.

We are reputed to deliver projects that embody aesthetics, economics and sustainability of the environment. We have a highly disciplined approach to investment in infrastructure projects that do not compromise on safety and quality.

Rudranee is made of committed people. We at Rudranee believe, our people shape and define our business. Our workforce is a team of highly expert & experienced engineers, multi-skilled labors, dedicated allied staff, management who is capable of handling multiple projects and all these led by the passionate & visionary leaders. This synergy makes us Committed People giving Committed Results.

The Company has entered into strategic partnership with **Supreme Infrastructure India Ltd. (SIIL)** in 2011-12. SIIL is a listed and renowned Mumbai based Infrastructure Company. This association gave both the companies an edge over other competitors to become a comprehensive player in infrastructure sector by sharing each other's expertise & capabilities.

Since its inception in 1993, Rudranee has continuously scaled to new heights and is still **expanding the horizons...**

Power Utility Projects

Water Supply Solutions

Building Works

Power Utility Projects

Today India's major challenge in Power Sector is not just power generation but also the lack of grid infrastructure. Rudranee is committed to work for Power Balance by vitalizing our capacitance on **Power Transmission & Distribution Projects** on a significant scale.

We are specialised in Construction & Erection of Distribution Lines (up to 33KV) & Sub Stations. We also undertake Extra High Tension Transmission and allied infrastructure projects.

Our engineering teams are well equipped with sound knowledge & latest technologies for very strong project execution. Our team is capable of executing the projects in all kinds of terrains & regions.

Power
is applied knowledge,
Applied Power is Performance

65 - 33kv Substations

1425 kms - HT lines (33 kv & 11 kv)

2050 - Distribution Transformer Centres

102 kms - U/G Cables

has been installed in just last **2 years**

FEW PROJECTS TO NAME FOR

- ▶ Complete Electrification work for Maharashtra State Electricity Distribution Co. Ltd. at Arvi, Hinganghat, Wardha, Nagpur & Katol.
- ▶ Construction of Extra High Voltage Lines at Pune & Solapur region for Maharashtra State Electricity Transmission Company Ltd.
- ▶ Turnkey Projects under MSEDCL Infra Plan II Phase B at Latur, Nilanga and Vidharbha region.

We keep
Life Flowing

Dams

Aqueducts

Water Storage Systems

Water Supply Pipelines

Water Supply Solutions

We execute water projects right from water retaining structures like **Dams, Jack-Wells, Water Treatment Plant to Distribution of water** to end user through **Pipelines**; we do it all.

We have undertaken construction of some of the largest and complex projects in India and completed within the time frame while matching the high quality standards.

We focus on solutions that help solve the nation's resource and supply challenges. To take up this task we are backed with expertise & hi-tech technologies .

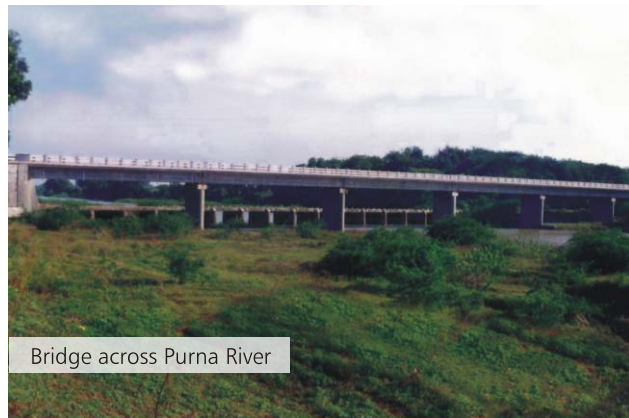

We have worked in various drought prone areas and got immense satisfaction seeing that our work not only provided the Drinking Water but also has become a boon for Agriculture & Industrial Development.

- ▶ We have been awarded a **National Award** from the **Indian Institution of Bridge Engineers** for the construction of Kolganga Aqueduct on Nandur Madhmeshwar Canal for completing the work within record time and with excellent quality.
- ▶ We have also been awarded for Jeur irrigation project for speedy completion of work.

FEW PROJECTS TO NAME FOR

- ▶ Construction of Irrigation Projects - Aqueducts at Lohari Sawanga on Kar River, at Bembla on Bembla River, Kolganga on Nandur Madhmeshar Canal and also at Dindori. Syphon on Bembla Main Canal.
- ▶ Direct Water Supply Scheme (W.S.S.) for Nashik (Satpur & Ambad) from Gangapur Dam. Construction of Jack-Well, Intake Well, Pump House, Approach Bridge & Pipeline with service road.
- ▶ Permanent W.S.S. at Jalna, Shendra, Shirampur, Supa, Ausa, Ahmednagar, Ransai & Pimpri-Chinchwad industrial areas.
- ▶ W.S.S. for Mudhol Town, Harpan Halli, Gudibande, Terdal, KR Pet, Naval Gunda etc. in state of Karnataka.
- ▶ Construction of Minor Irrigation Tank at Hangarga, Jelugade, Telgaon, Kasura and Naigavan.

Bridge across Purna River

Four Laning of Nasik-Niphad-Yeola Road

Work at Shendra Five Star SEZ, Aurangabad

FEW PROJECTS TO NAME FOR

- ▶ Construction / Improvement of Alandi Road under JNNURM Scheme for Pune Municipal Corporation. Sangamner-Loni-Kolhar road on BOT basis.
- ▶ Four Laning of Nashik-Niphad-Yeola-Vaijapur Road.
- ▶ Four Laning of Wada Bhiwandi SH 35 and Mannor wada SH 34 in Taluka Palghar/ Bhiwandi/ Wada, district Thane.
- ▶ Providing infrastructural facilities to newly formed industrial areas - Shendra Five Star SEZ, Chikalthana and Additional MIDC Area, Latur.
- ▶ Construction of Major / Minor Bridges across Manjra River near Mahapur, across Sur River at Bhusawal-Jamner, across Godavari River at Navaghat, Nanded and also at Chikalthana Bhatkheda for PWD Latur.

Connecting Lives

Creating opportunities

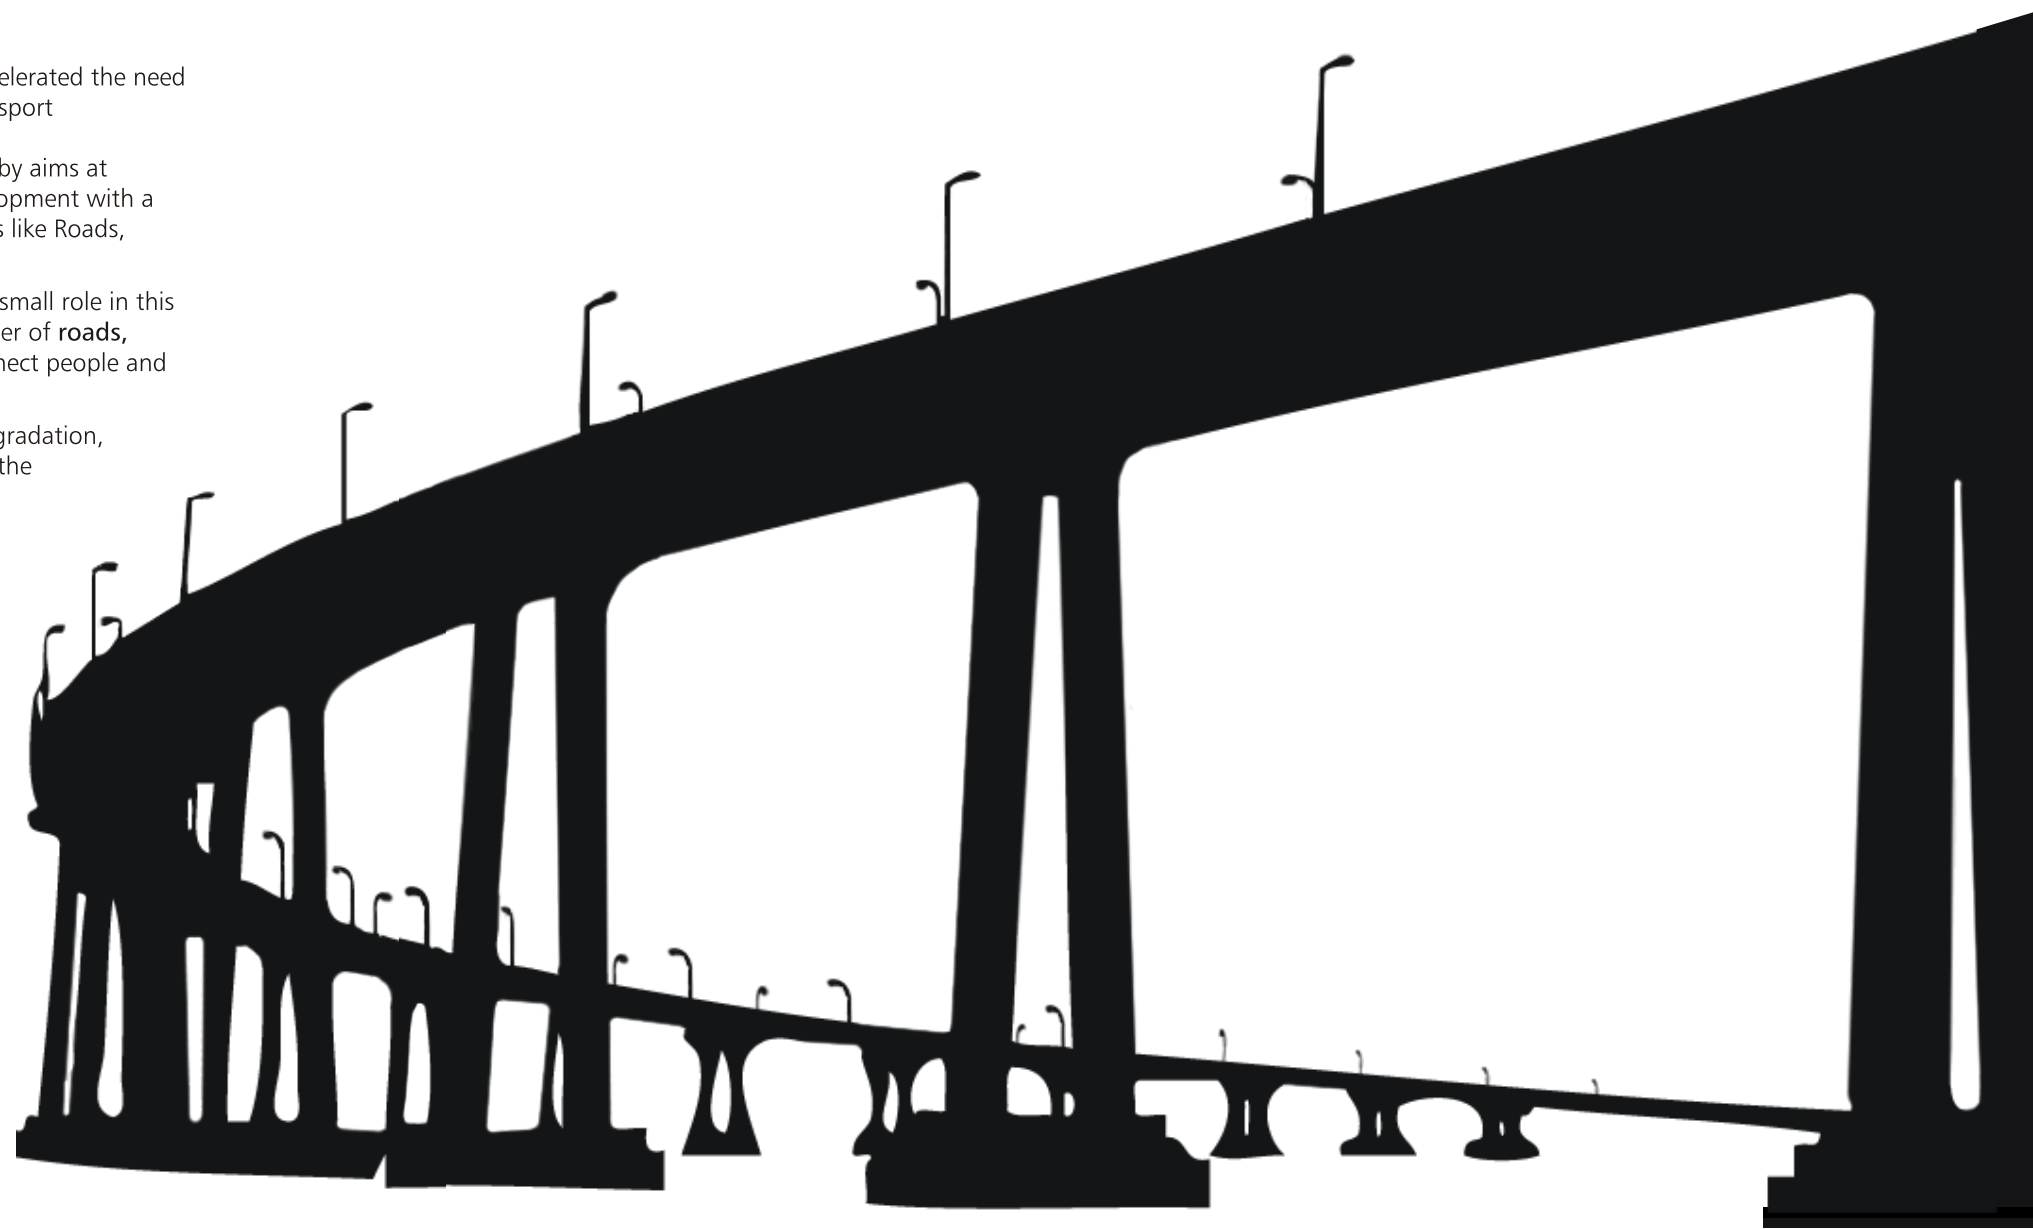

Roads & Bridges

India's economic growth has accelerated the need for efficient and world-class transport infrastructure.

The current national policy thereby aims at speeding up infrastructure development with a focused approach on vital means like Roads, Bridges etc.

Rudranee, while playing its own small role in this national mission, has built number of **roads**, **highways** and **bridges** that connect people and creates opportunities.

We also undertake works for upgradation, widening, and strengthening of the roads to withstand the growing traffic burdens.

Taking off on a Strong Base

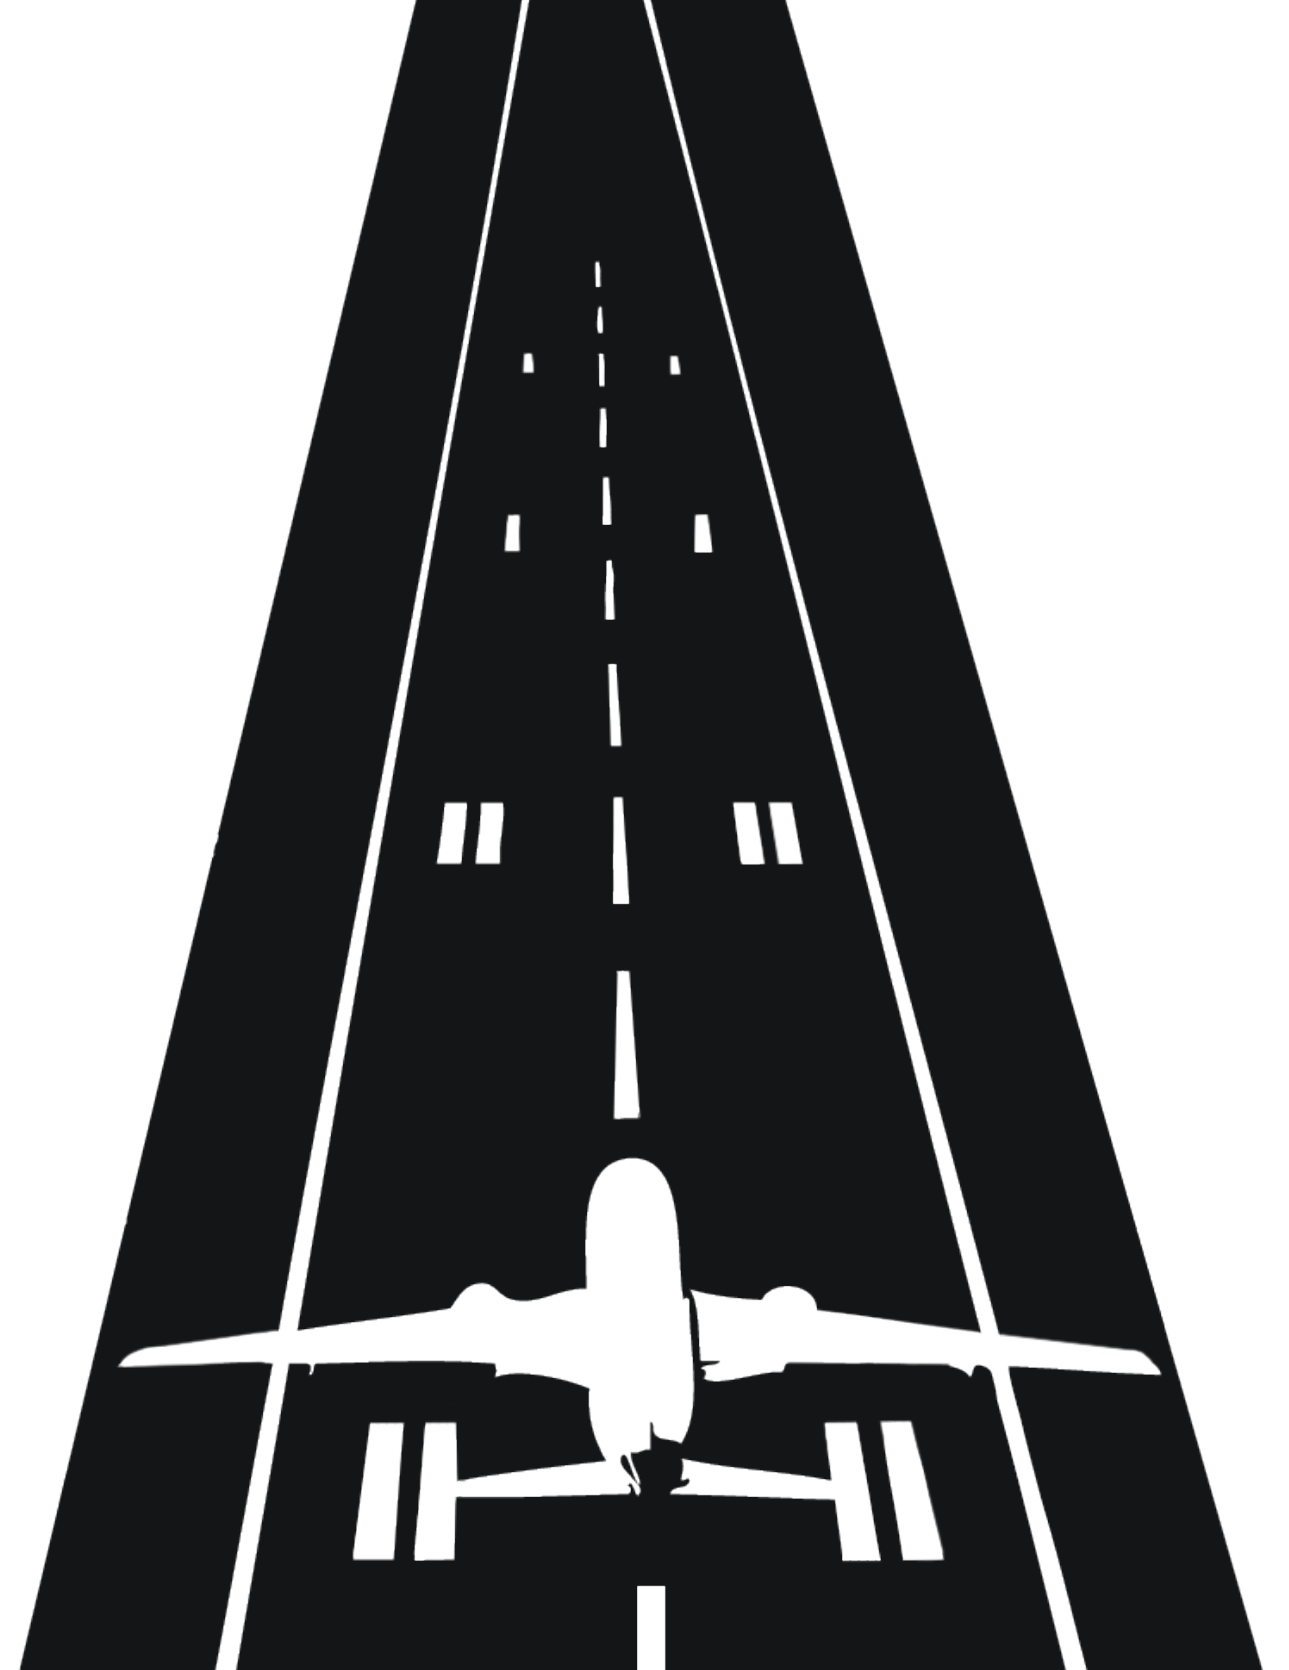

Airstrips

Every flight requires a strong base...

Today the world has come closer and we are living in a global village. This has surged the air traffic around the world. India's air traffic has also seen to be constantly increasing every year. But the country lacks aviation infrastructure. Rudranee intends to bridge this need and supply gap.

With the base of its huge experience and expertise in diversified infrastructure fields, Rudranee now has ventured into this sector.

In a very short time **Rudranee has proved its mettle** in this challenging aviation infrastructure sector. We are committed to make every takeoff and landing safe & smooth.

Air Strip, Latur

STANDING THE TEST OF TIME...

The Airstrip at Latur Airport is 2420m long & 45m wide with 100m x 75m apron & taxiway. It has the capacity of landing planes upto Boeing A737.

The quality of construction was well proven, when the airstrip had to deal with as many as 80 VIP Aircraft movements within ten hours. It was possibly the state's busiest runway for that day. This unprecedented load of traffic in a single day was very challenging; the runway passed this test and was hugely acclaimed for it.

Building Works

The Urban fast developing and growing cities have their own growing needs for various infrastructure. Rudranee has a proven track record in constructing various special purpose buildings & allied infrastructural works such as **Industrial Sheds, Commercial & Residential Complexes, Sports Complexes, IT Parks, Hospitals**, etc. All these infrastructures have their own ergonomical needs. We clearly understand these needs and accordingly build structures that best serves its ergonomical need while matching the needed strength standards and the aesthetic look.

We are also specialized in constructing **Industrial Sheds** which have their own set of parameters to take care of with respect to the machineries & operations.

- Industrial Sheds
- Residential Complexes
- Commercial Complexes
- Hospitals
- Institutes

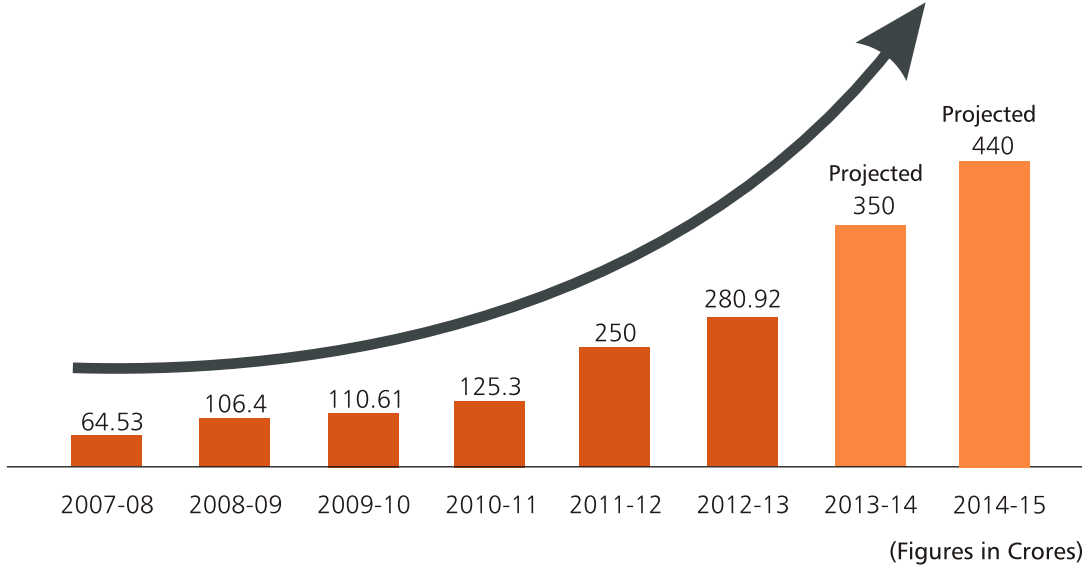

Creating Public Utilities

- ▶ **Kamalnayan Bajaj Hospital** at Aurangabad - 125 bedded Hospital (G+3), constructed on 8 acres of land with built-up area of 1,25,000 sq. ft., with sewage treatment plant.
- ▶ Administrative Building for Divisional Offices at Latur.
- ▶ **Shri Guru Gobind Singhji Institute** of engineering & Technology at Nanded.
- ▶ Developed Industrial Sheds for companies like **Bajaj Electricals, Varroc Engineering, Endurance Systems, Gharda Chemicals** etc. and also for Government bodies like MIDC. We have constructed Sheds for Funnel line, Compressor units, Molding units and done mass concreting of furnace section for **Videocon Narmada Glass**.
- ▶ Mass Housing project for rehabilitation of atomic power project affected families at Tarapur.

All Major Municipal Corporations in Maharashtra

We are closely working with varied Private & Government Departments upto their satisfaction.

We have a strong understanding of the regulatory & Governmental framework as well as being a corporate company we also understand the operational needs of Private Sectors.

Work at Nashik Jack-Well

Facts Beyond Figures

One of the achievements of Rudranee in recent times is the challenging job of construction of new approach channel on left bank of Jayakwadi dam, which is completed in a record time of 37 days and has a length of 900 m in the dam, including de-silting of 500 m length of existing approach channel. The project was completed at crucial time of drought. And this has in real sense solved drinking water problem of Aurangabad City for years to come.

Rudranee has constructed some vital road projects that connect hundreds of villages to cities and has proved to be the arteries of those regions.

Rudranee achieved the grid balance in Wardha, Nagpur region and has made power available not just to satisfy the present needs but growing future needs as well.
